

Informed consent and internal rules

I give my consent to my child to participate in Olfos sports academy sports programs, included Ave maria soccer league. I understand all risks that I will have in exercise sessions, taking full responsibility if any injury or risk life situations may have before, during or after these activities.

I was recommended by the Ave Maria soccer league management to present a written clearance from my primary doctor, before be part in any of their sports programs just for my safety.

This physical activity clearance is valid for a maximum of 12 months from the date it is completed and becomes invalid if my condition changes. I also acknowledge that olfos sports academy may retain a copy of this form for records.

Games could be suspended because of weather conditions, wet fields or thunderstorms threat. Those games will be recovered before the league ends.

Players can't wear jewelry, chains, earrings, necklace jewelry or other objects that could be dangerous during physical activities. Also, they can't have chewing gum or eating some kind of candy.

Our club highly recommends the proper use of protection items such as shin guards and the proper shoes for playing soccer. Referees have all the power to not allow a player get into the game without these 2 items.

It's totally prohibited to yell at the children or give them instructions during a game. This will affect your child's performance and other children too. Those parents or adults that are in the field doing any negative manifestation or interfering with a happy sports festivity will be removed from the field. If it is necessary, we will call the police if we have to or suspend the game.

Any violent actions or use of bad words performed by parents, relatives, friends or even our own players, will be separated from the league. Our director will decide if this player or person that performed this violent act or use of inappropriate language can be back or not to the league.

Our main goal is that children play their favorite game in a safe and happy environment. We believe that the best way to develop them is in a environment free of pressure.

Consent to release photo / image
